ABOUT ME

Bachelor of Science in Mathematics interested in data science and deep learning. I would like to develop in these areas and learn how to apply the acquired knowledge in practice. Originally from Saint Petersburg, Russia, now an Israeli citizen.

EDUCATION

BSc In Mathematics   2018-2022
Saint Petersburg State University | Saint Petersburg, Russia

- Thesis topic: "Multidimensional Poisson telecom process and related limit theorem"
  Research supervisor: professor M.A. Lifshits
- Course work: "Greedy conjecture for the superstring problem"
  Research supervisor: professor A.S. Kulikov
- Computer vision project: "Intelligent Placer"
  Github link: https://github.com/nastyakor01/IntellPlacer

Masa student   2022-2023
Bar-Ilan University | Ramat Gan, Israel

- Research topic: "Rare events for Gaussian processes"
  Research supervisor: professor Naomi Feldheim

ACHIEVEMENTS

Scholarships
- "Yandex" scholarship for the entire period of study
- "Gazpromneft" scholarship for graduate research

SKILLS

● ● ●   Python (PyTorch, NumPy, Pandas, Scikitlearn, Matplotlib)

● ● ○   LaTeX

● ○ ○   C++

Languages
- Russian (native)
- English (C1)
